Everest Academy.
Excellence Happens Every Day.

S.E.L.F.™
Skill. Education. Leadership. Fitness.

Canada’s first K-12 S.E.L.F.™ Private School
Why families choose Everest Academy.

We believe that Everest, a S.E.L.F.™ Academy, is the future of education, your child’s future.

Everest students are fully engaged. They are empowered to excel in their own customized program, designed around what they love to do most. Whether it’s sports, information technology, arts or academics, Everest students are living proof of the expression ‘do what you love, love what you do.’

Unlike other schools, at Everest students are supported and encouraged to follow their passion for a particular endeavor. They become focused, attentive and engaged. They give all of themselves to learning and excelling. As a result, they perform better in everything they do.

Our unique S.E.L.F.™ platform offers a balanced equation for success. When mind and body are fully engaged, imagination, curiosity and learning accelerate naturally.

We offer a whole-child approach to education implemented through an individualized and enriched curriculum and a supportive, nurturing environment conducive to character development. Our unique platform adds value to a student’s education. We see each student as an individual, each with the potential for greatness and success in their areas of excellence. Everest Academy’s S.E.L.F.™ platform allows each student to experience a holistic education, customized to his/her own needs. Skill, education, leadership and fitness all come together to create a blended, individualized program for the student, which ensures a strong foundation for post-secondary success. The four pillars of our S.E.L.F.™ platform instill confidence and independence in students to be the best that they can be.

Our school is founded on the idea that all students can achieve remarkable excellence as scholars, athletes, leaders and performers when given the opportunity and resources.

Everest Academy is Canada’s leading K to 12 S.E.L.F.™ private school dedicated to the holistic development of high-achieving students.

S.E.L.F.™ stands for:

Skill:
Through expert coaches and trainers, each student receives focused attention and meaningful practice time, all within the school day. Everest champions the child to follow their passion through customized programs. By supporting a child’s interest and talents, providing a disciplined and consistent environment, students develop advanced skills in their chosen areas of excellence. This results in better opportunities to reach the highest levels. Furthermore, many critical life skills are developed through dedication and perseverance in an endeavor.

Education:
Each student’s day comprises individual moments and small classroom settings, with a student-teacher ratio that never exceeds 15:1. The increased interaction with teachers greatly enhances the likelihood of achieving deep and durable learning—the ultimate objective in education. Setting a strong academic foundation is critical for life-long success.

Leadership:
At Everest, every student is a leader. Our environment offers students the opportunity to learn more about themselves, develop their personal vision, nurture strong friendships and build key personal skills that will serve them for a lifetime. The Everest faculty leads by example. Our high standards and strong belief in nurturing the whole child create a unique environment that fosters individual growth and personal leadership.

Fitness:
The Everest S.E.L.F.™ platform is unique in its ability to promote a lifelong love for fitness. Our health and fitness program is deeply embedded in our philosophy that a strong body supports learning. From personal fitness programs to our certified chef-cooked meals, Everest exudes a positive, healthy environment. Everest Academy provides the best opportunities and resources for today’s student-athletes to put into practice the key principles for academic and athletic success.
Everest, a S.E.L.F™ Academy

“Everest has exceeded our expectations in every way – academically, athletically, and even nutritionally! In just a few months, we can see a huge change in our son on and off the ice! He exudes confidence as a student and as a goalie. Everest has made the difference.” – Stefanie Schaeffer, Everest parent
